## 2016-2017 IOWA Test Results

### Grade 2

#### Grade Level Equivalency

#### About this graph:

All students who take the Iowa Test of Basic Skills (ITBS) receive a Grade Level Equivalency ranking. The two digit code references the grade level and month. For example, a score of 2.4 indicates what a typical student is expected to score at the end of the fourth month of Second Grade. This graph shows the test score averages of all second graders at St. Patrick at the beginning of their second month of this school year. The Composite score is the overall average in all content areas.

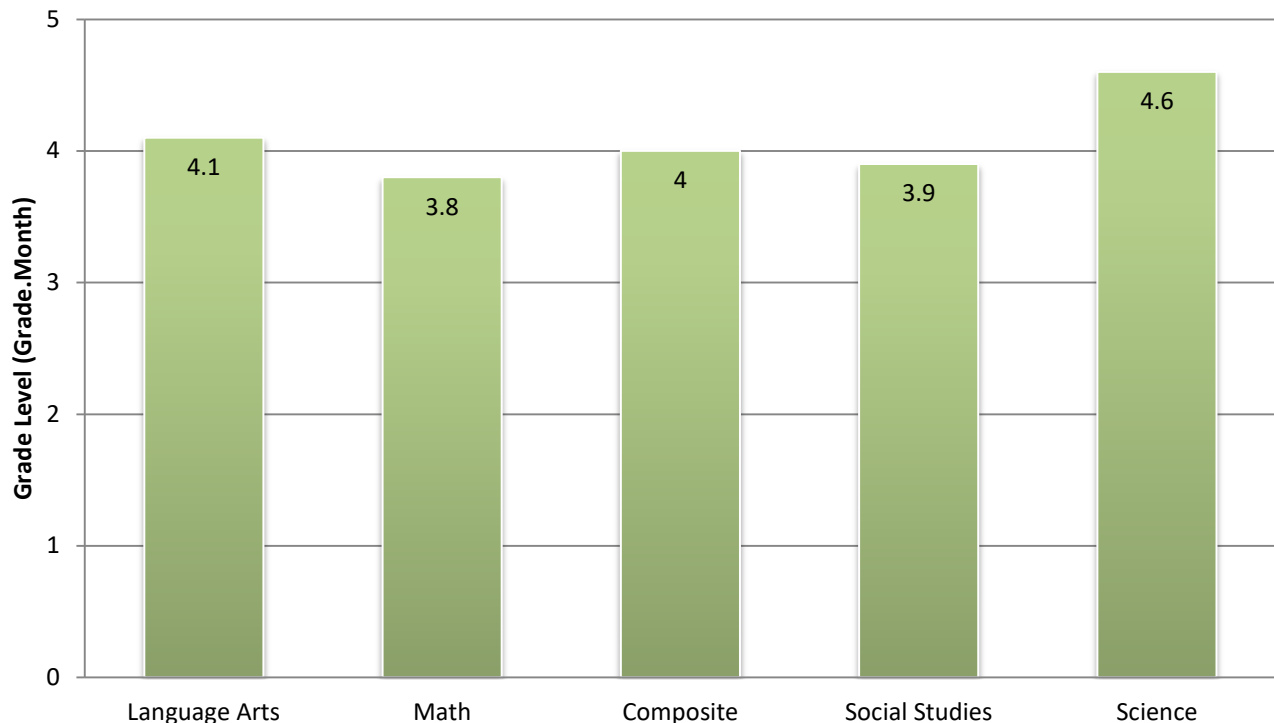

As you can see, our second graders are meeting the grade level expectations in both subject areas that were tested. **Additionally, on the individual sections of the assessment, the students ranked between the 55th and 67th National Percentiles. This means that our students, in some areas, tested higher than 67% of the approximately 300,000 students who took the same assessment nationwide.**

## 2016-2017 IOWA Test Results

### Grade 3

#### Grade Level Equivalency

#### About this graph:

All students who take the Iowa Test of Basic Skills (ITBS) receive a Grade Level Equivalency ranking. The two digit code references the grade level and month. For example, a score of 3.8 indicates what a typical student is expected to score at the end of the eighth month of Third Grade. This graph shows the test score averages of all third graders at St. Patrick at the beginning of their second month of this school year. The Composite score is the overall average in all content areas.

As you can see, our third graders are exceeding the grade level expectations in all subject areas that were tested. **Additionally, on the individual sections of the assessment, the students ranked between the 53rd and 81th National Percentiles. This means that our students, in at least one area, tested higher than 81% of the approximately 300,000 students who took the same assessment nationwide.**
